"THE RAW" BERMUDA HONEY

(4 OZ JAR- \$30)

Enjoy Raw Bermuda Honey straight from the source. Our raw honey is harvested in small batches from hives kept on property. Our hives are maintained by local beekeeper, Spencer Field, who is on a mission to grow + protect the island's endangered bee population. "The Raw" is known for its amazing taste, thanks to the exotic variety of old-growth sub-tropical flora and fauna that has been cultivated here for 70+ years. The health benefits of incorporating raw honey into one's diet are impressive. It is antioxidant rich and helps promote healthy immunity + sleep. Raw honey is a prebiotic which helps with digestion and gut health. Pair with your favourite meal, or take home as a special gift. #savethebees

It is a blend of organic bee's wax; virgin organic coconut oil; Old Garden Rose healing oil; and little organic rose absolute for some added luxury healing.
